2. Offer and Contract Completion, Cost Estimation

2.1. Offer

Offers of MGE are non-binding, provided that they have not been particularly denoted as obligatory. The contractual partner's order is deemed as accepted with the order confirmation by MGE, by which a contract becomes effective.

2.2. Cost Estimate

A cost estimate is created by MGE according to the best expertise. However, no liability will be assumed for its accuracy. If there is an increase in the costs to the extent of more than 15% after placing an order, then the MGE will immediately inform the contractual partner about this. If it deals with inevitable cost increases of less than 15%, a separate agreement is not necessary and the adjusted fees may be charged accordingly. Unless otherwise agreed, changes in the assignment or in additional assignments may be invoiced at appropriate prices.

Cost estimates are chargeable.

3. Privacy

The client hereby irrevocably undertakes to keep all the trade and business secrets by MGE, which are made available, provided or otherwise which are in connection to or because of a business relation or contact with MGE and not to make these available to any third party under any circumstances without an approval by MGE. 4. Price and Terms of Payment

Our prices are indicated in EURO. The legal value added tax shall be charged in addition to the applicable amount. Any fees are to be paid by the buyer.

The listed prices are applicable "Ab Werk" or "ex works" INCOTERMS 2010 and do not include costs for packaging, transport, assembling or installation.

Services including training and instruction of the employees of the contractual partner are invoiced according to the applicable service price list. The travel costs and expenses incurred while executing the order are to be borne by the clients, in addition to the agreed price.

Price adjustment: Value stability of the claim plus additional claims is particularly agreed. The Consumer Price Index published monthly by the Austrian Bureau of Statistics or an equivalent index is used to calculate the value stability (VPI 2011 = 100). The index number calculated for the month of the contract conclusion serves as the basis for this contract. Fluctuations in the index number by up to 3% either way are not taken into account. This range shall be recalculated each time it is exceeded; the first index number beyond the limit shall represent the base [...] for the rest of the amount receivable, as well as for the calculation of the new limit. Amounts thus calculated are to be rounded to one decimal.

In the event of partial deliveries, partial calculations are always permissible.

In case of agreement of partial payment, there is a default of payment, if even a partial payment is unpunctual or is not made in full. In the event of failure to meet the deadline, the full outstanding amount is immediately due for payment. In the event of failure to meet the deadline, the MGE has the right to take charge of any goods supplied under reservation of ownership without a previous repudiation, until the entire debt is covered, including additional costs.
